Dear Ms. Kimura,

Please accept this email transmission as official notification of the U.S. comments on SC 2 N 2884, Request for comments on the Application for Registration No. 200, Uralic Supplementary Cyrillic set.

The U.S. comments are as follows:

The U.S. is recommending against the registration of the Uralic Supplementary Cyrillic Set (No 200), as it contains 11 characters not part of ISO/IEC 10646, and not even considered in any Amendment as of today. A good use of the process would be to request addition of these characters in the Universal Multiple-Octet Coded Character Set (UCS) specified by ISO/IEC 10646 before being registered.

Please do not hesitate to contact me if I may be of further assistance.

Regards,

Matthew Deane
For the US P-member JTC 1/SC 2
