Part of Hangul in ISO/IEC 10646-1:2000 leads to confusion in information interchange since it does not exactly reflect the demand of D P R of Korea.

This proposal gives a tailoring delta for correct Korean character ordering in the field of IT. This proposal is arrayed according to Korean alphabetic order of KPS 9566-97.

This document was made with the reference of Pre Is of ISO/IEC 14651 (International string ordering and comparison) and SC2/WG2 N2249R.
